Kendal, Cumbria, UK

emma-smyth.com

Summary

I am a Cumbria based Front End Developer, excelling in problem-solving and attention to detail. I love facing challenges that allow me to learn new skills and am quick to master new technologies, aiming to continuously evolve in my field. I am keen to embrace innovative projects that push my capabilities further and love to work as part of a team. My future ambition is to become a lead developer.

Skills

- React.js
- Redux
- JavaScript ES6
- Restful API's
- Node.js
- Deployment tools: Vercel & Netlify
- Git version control
- HTML5
- CSS3
- Bootstrap
- Tailwind.CSS
- SCSS

Projects

Portfolio website | *React.js, Bootstrap*

- My portfolio website showcases my recent projects. Please take a look [here](#).

The Wild Oasis | *React.js, Styled Components*

- A desktop application created with **React.js** to manage a hotel's operations, including management of cabins & bookings, checking in & out and creating users. This app utilises **React Query** & **React Router** to manage state and is built with a back-end on **Supabase**. **Restful API's** were utilised to manage the fetching and amending of data, as well as the user authentication.

Fast React Pizza | *React.js, Tailwind.CSS*

- A website to order pizza online from a menu loaded through an **API**. Users can place an order and check the status of their order. State is managed through **Redux** and **React Router** is utilised for the app layout.

Worldwise | *React.js, CSS*

- An app which allows the user to keep track of their travels, by adding places they have visited & keeping notes in one place. It utilises **react-router**, a **geolocation API**, **lazy loading** and the **context API**.

Annis Spa | *JavaScript, HTML, CSS*

- Designed and built an informative website for a spa that elegantly showcases the spa's luxurious branding.

PacGirl | *JavaScript*

- Recreated the classic Pac-man arcade experience, within a **JavaScript-driven** gaming environment.

Professional Experience

January 2022 - Present

Town Talk Polish, *General Manager*. A varied role combining:

- Management duties, sales & account management, project & team management and the overseeing of marketing activities.
- **Website management:** Managing the project of developing a new website for Town Talk, with the goal of aligning their online brand appearance with its market positioning following being granted the prestigious Royal Warrant.
- **B2B communications:** Leading meetings with the company's biggest customers such as Waitrose, Mejuri and Argos. Managing all communications with these accounts such as emails and calls.
